

Muhammad Abdullah Khan

Abbottabad, Islamabad

Email: abdulla.khan2005@gmail.com | Phone: 03365304142

Career Objective

Aspiring Data Scientist with strong interest in Machine Learning and Large Language Models. Highly consistent, hardworking, and passionate about exploring complex data to generate meaningful insights. Skilled in multilingual communication and continuous learning.

Education

BS Data Science

FAST National University of Computer and Emerging Sciences, Islamabad 2023 - 2027

Skills

- Data Analytics
- Machine Learning Engineering
- Operating Systems
- Web Scraping
- Multilinear Regression

Experience

Freelance Data Analyst

- Performed Exploratory Data Analysis (EDA) on a solar company's dataset to identify sales trends.
- Generated insights to explain high sales periods using data visualization and pattern recognition.

Projects

1. Spotify Scraper Automation

- Developed an automated web-scraping system for Spotify to extract and organize music data including artist, genre, and track details.
- Tools: Python, Selenium, Pandas.

Result: Automated data collection reduced manual effort by 90%.

2. Dog-Cat Classification using Machine Learning

- Built a supervised learning model to classify images of dogs and cats.
- Tools: Python, TensorFlow, OpenCV.

Result: Achieved 95% accuracy on the validation dataset.

Achievements & Extracurricular Activities

- Winner, Inter-Board Squash Championship
- Captain, District Team — All Pakistan Squash Championship
- Volunteer, Islamabad Wildlife Management Board (cleaning drives)
- Winner, All Pakistan Science Competition, GIKI
