

**Name:**

[Shahoud Shahid]

**Contact Information:**

Email: [i232515@isb.nu.edu.pk]

Phone: [03327618891]

LinkedIn: [linkedin.com/in/shahoud-shahid-502510281]

Address: [House no 233, street 8, DHA Islamabad]

**Career Objective / Profile:**

Aspiring Data Scientist proficient in Machine Learning, EDA and Web development. Committed to building scalable, data-driven solutions to real life problems.

**Education:**

Bachelor of Science in Data Science, FAST University Islamabad, August 2023 - Present

Relevant Courses: Database Systems, Data Analysis and Visualization, Statistics

GPA: 2.9/4.0

**Skills:**

- Programming Languages: Python, C++, C, R, Assembly
- Deep Learning and Agentic AI, Machine Learning and EDA
- Database: MySQL, MongoDB
- Prompt Engineering
- Time Management

**Experience / Internships:**

1. Agentic AI Intern at AIM Lab, FAST-NUCES Islamabad,  
June 2025 – August 2025
  - Made PSX stock exchange multi-agent
  - Explored agentic AI using python libraries, Lang Graph, react and MySQL
2. AI and ML Intern at Arch Technologies, Islamabad  
June 2025 – July 2025
  - Explored python libraries for machine learning like scikit-learn, YOLOv8
  - Completed tasks with real life scenarios requiring AI and ML skills

**Projects / Research:**

1. Snake Game (C++), November 2023
  - Classic snake game developed using the GLUT library on Ubuntu with dynamic map layouts and input handling.
2. Arka droid – Brick Breaker Game (C++), February 2024
  - Applied OOP principles such as encapsulation, inheritance, polymorphism, abstraction to create an interactive game having features including collision detection, game physics, power-ups, score tracking, and level progression.

**Achievements / Extracurricular Activities:**

- Head of Projects, Fast Data Science Society — 2025 – Present
- Volunteer, World Wildlife Fund — 2024-2025
- Specialization in Agentic AI, Michigan University — 2025
- AI Engineering Professional Certificate — IBM - 2025
