Address: [House # 21, Street 10, Rawalpindi, Pakistan]

Career Objective / Profile:
Aspiring Data Scientist and current student at FAST NUCES, with a strong foundation in IICT and databases.
Passionate about uncovering insights through data and eager to grow in the fields of data science and analytics.
Committed to continuous learning.

Education:
Bachelor of Science in Data Science, National University of Computer and Emerging Sciences (FAST-NUCES), June 2027
Relevant Courses: Databases, Design and Analysis of Algorithms, Data Warehousing and Business Intelligence
GPA: 3.05/4.00

Skills:
- Data Analysis & Visualization : Python (Pandas, Numpy, Matplotlib, Seaborn),
- Programming Languages: Python, C++/C, Html, R, Javascript
- Databases: MySQL, MongoDB
- Tools: VS Code, Ubuntu , Latex
- Written Communication Skills
- Team Collaboration
- Arts and Crafts

Experience / Internships:
No such experience yet but have hands-on experience of different course projects.

Projects / Research (if applicable):
1. Inflation Forecasting, April, 2025
We gathered data and predicted inflation for coming years using R language models - Arima, Ridge, Lasso.

2.NASCON Event System, April - May , 2025
Developed front end using HTML, CSS, Java and backend processing, storage and retrieval using SQL.

3. Imtiaz Mall Data Analysis, November, 2024
Dataset was provided, our task was to preprocess the data and then perform exploratory data analysis(EDA).

4. Game Development, semester wise
Snake Game using concepts of C++, Pac-man game using Assembly language.

Achievements / Extracurricular Activities:
- Graphics Workshop Certification — 2024
- Head Operations in Wall of Hope
